

TYSON FRESH MEATS NAE BEEF AFFIDAVIT

This affidavit must be completed by approved producers, growers, and feedlots upon shipment of cattle to a feedlot or Tyson plant.

Cattle eligible for NAE BEEF program must also meet criteria described for phenotypic or genotypic qualification of Angus breed specifications, as described in the Tyson Fresh Meats NAE Feedlot Minimum Requirements (SRNat 008) document.

I, (manager or owner name-PRINT): _____ doing business as
(Company / Feedyard / Ranch Name) _____
Address: _____ City: _____ State: _____ Zip: _____

As an approved:

- Original Producer (ranch of birth) Backgrounder/Grower (only check if cattle grown were NOT born on premise) Feedlot (finish cattle only)
- Global Animal Partnership GAP Certificate #: _____ Expiration Date: _____

Third Party Verifier (company name - PRINT): _____

----- (Put an X in the box for all that apply for the cattle referenced below) -----

I/we have abided by the following production procedures listed in 1, 2, 3, & 4 below while under my care to qualify the animals identified on this document as eligible, in part, to supply NAE cattle:

1. In raising these animals, the following have never been used while under my care:
 - a. Supplemental hormones, of any kind, in the feed or via implant
 - b. Steroids and beta-agonists
 - c. Antibiotics, including ionophores, either therapeutic or sub-therapeutic (non-antibiotic coccidiostats labeled for use in cattle are allowed)
 - d. Animal-derived feedstuffs, of any kind (tallow, fish oil, feather meal, blood meal, etc.)
2. The feed used for these animals did not come in contact with conventional feeds containing any of the above-mentioned items; and the proper documentation (i.e., feed labels, feed supplier affidavits, etc.) to confirm compliance with production claims has been kept and will be available for a period of two years.
3. Each animal is identified and all animals receiving medication or deemed ineligible for any reason have been identified. Good animal husbandry practices have been followed to provide proper housing, good nutrition, and low stress handling to ensure each animal's health and well-being has been maintained.
4. I attest that all livestock referenced by this document and transferred are of U.S.A. origin (i.e., born and raised in the U.S.A.).

The undersigned, previously agreeing to adhere to these rules, confirms that to the best of his/her/its knowledge the cattle identified below meet each of the four NAE requirements above and will cooperate to resolve any issues that may arise that would lend doubt to the eligibility of any of the cattle referenced by this document. Furthermore, I understand that this documentation is part of the slaughter facility's Cattle Age Verification Program and I have records to support the above information. I agree to keep all records supporting this Age Verification and this affidavit on file for a minimum of three years. I understand that my operations and documents may be audited.

Lot #/Group ID: _____ Head Count: _____ Sex: STR HFR MXD ^(check one) Ship Date: _____

This section is to be completed by the seller and describe the identification of the cattle at the time of sale / delivery.
