*Age and source by third party is still heavily discussed and continues to be the ever moving target! It is by far the most demanded from the buyers and have seen premiums paid for third party identified cattle. How long this will last is anyone's guess, but we are confident it will remain for the 2008 marketing season. We have seen many different companies provide their services and each have various levels of identification in their programs. We encourage you to contact these programs to help decide which one is best for you. We have listed three companies at the end of this letter.*
