BRED COW TAGGING INFORMATION

Stockyards Vet Services processes all cows and heifers in our yards, unless otherwise announced. Breds are marketed to the best of the Vets ability. A percentage of the Vets judgement is determined by the size of the calf. The feed ration and the type of bull used will have some bearing on the size of the calf, thus the determination of calving time will fluctuate. When possible, we encourage you to use the calving dates represented by the seller.

AGE TAG

Location of this tag denotes age of cow
